I am also:

A Full Member of The Academy of Experts

An Expert - 1<sup>st</sup> tier listing - Association of Personal Injury Lawyers (APIL)

An Individual member of the Expert Witness Institute (EWI)

### **SYNOPSIS OF EXPERT WORK**

I currently prepare around 250 medical reports per annum. As a consultant plastic surgeon, requests for my opinion fall into two main groups:-

- 1) Consequences (especially scarring) following accidental injury.
- 2) The appropriateness of treatment and quality of care in medical negligence cases. I have a special interest in congenital deformity and especially surgery to cleft lip and palate and have been involved in several medical negligence cases in these areas.

I would estimate that about 90% of the reports I prepare are on behalf of the claimant, 8% on behalf of defendants and 2% are joint requests.
