Consultant Spinal Surgeon The Royal Orthopaedic Hospital and Birmingham Children's Hospital, UK

Mr Newton Ede has been practicing in the UK for 17 years. He is a full-time Consultant Spinal Surgeon at the Royal Orthopaedic Hospital and Birmingham Children's Hospital, dividing his clinical practice between adults and children with complex spinal disorders.

He is experienced in providing high quality impartial medical reports covering the full range of adult and paediatric spinal conditions, taking instructions from both claimants and defendants since 2015.

With over 15 years of reservist military experience, including operational deployment in Afghanistan, he maintains an interest in military injuries. He has been compiling military medical reports since 2007.

Mr Newton Ede lectures to the legal profession on spinal surgery and negligence, including the 2018 APIL Clinical Negligence conference. He attended the Bond Solon "Excellence in Report Writing" in 2015 and the Bond Solon Annual Conference in 2017. He is fully conversant with Part 35 of the Civil Procedure Rules, Practice Direction and Pre-Action Protocols.

Mr Newton Ede plays a key role in training surgeons, having written the national spinal surgical curriculum for the Royal College of Surgeons and working as the post-graduate clinical tutor at the Royal Orthopaedic Hospital. He also has a keen interest in research, holding a Research Associate position at the University of Birmingham, winning grants and receiving numerous national and international prizes including the prestigious Whitecloud Award.
